

# RF DESIGN ENGINEER **OPPORTUNITY**

## AIRWAVZ SOLUTIONS

### **RF Design Engineer**

Airwavz Solutions is a leading wireless infrastructure company that designs, develops, and delivers wireless infrastructure platforms as a service for building owners, service providers and enterprise customers to flexibly and economically solve the coverage and capacity challenge created by the explosion of mobile device use indoors. We are seeking a RF Design Engineering professional to join our fast-paced team and support the aggressive growth of Airwavz Solutions' products and services in the commercial real estate space.

## POSITION SUMMARY

Working with the Director of Engineering the Design Engineer provides strategic support using their extensive skills in delivering technical planning, design, activation, and implementation to ensure successful integration of company networks to the Airwavz portfolio.

## RESPONSIBILITIES OF THE POSITION

- + Represent Airwavz on customer appointments to conduct Wireless Assessments, Benchmark Walks and Site Surveys
- + Conduct technical review of completed design packages to confirm compliance with Carrier and Airwavz technical specifications
- + Qualify current and future network designs for feasibility and model compliance
- + Complete design reviews with Carrier RF teams
- + Perform updates and modifications to current design packages for internal teams
- + Support all post construction system activation activities (Activation, Greenlighting, Commissioning and ATP)
- + Collaborate with construction and product teams to maintain OEM relationship and roadmap for future capabilities
- + Knowledgeable in trouble shooting as well as ability to follow issue tree for problem assessment
- + Performance of other related duties will be required

## SKILLS AND EXPERIENCE

- + Four-year degree in Technology/Engineering or in a related field; or 2-5 years professional level technical/engineering experience required
- + Valid driver's license and reliable transportation
- + iBwave certification is required

- + Multi-state travel is required
- + Excellent verbal and written communication skills
- + Must possess and demonstrate excellent customer service skills
- + Proficiency with Internet and Microsoft Office applications to include, but not limited to: Word and Excel
- + Must be detail oriented with good organizational and time management skills
- + Ability to multitask effectively
- + Must be analytical and have proven problem-solving abilities
- + Must have effective interpersonal skills to interact successfully with customers, management and team members to ensure customer satisfaction
- + Must be able to prioritize and re-prioritize as needed in a fast-paced working environment, especially when dealing with time sensitive issues and mandated deadlines
- + Must successfully pass pre-employment background check
- + COVID-19: Vaccination is not required however all employees must comply with applicable business, regional and national ordinances pertaining to their work site location.

**Qualified and interested candidates should send a resume to [Careers@airwavz.com](mailto:Careers@airwavz.com) and reference the position of interest.**
